

# DISL Automatic Lyrics

## Killuminati

Interviewer: next shit's called Killuminati, because that's really what the Illuminati is on

Pac: That's why i put the 'K' to it, but u know what niggas is telling me about this illuminati shit  
while I'm in jail

Like the diamonds and all that. (right right right)

That's another way to keep your self esteem low, That Another Way To Keep You Un-confident  
And I'm putting the 'K' because I'm killing that Illuminati shit!, trust me

People yelling 'wake up' but they're still dreaming  
They say 'Killuminati' but they don't know the meaning

They took Pac's saying way out of context

What he meant is that Illuminati shit is nonsense

He wasn't saying we should kill anybody

He was saying we should kill that talk of Illuminati

Cause all it is is a bunch of hocus pocus

To make us feel powerless and shift all our focus

From the corporations and the corrupt government

To the secret societies and sacred covenants

That's what they want so you don't have to take you serious

They brush you off as a conspiracy theorist

I'm not saying that Illuminati isn't real

But I feel it's been fabricated into a bigger deal

Than it should be to blind us from the truth

With a theory for which they know we will never find the proof

So fuck theories I deal with real issues

There's a war in the streets gotta keep the steel with you

The police will get you and lock you up for profit

Cause corporations got our government up in their pocket

It's the same from the ghetto to the burbs

We are all slaves to the federal reserve

Consumerism got us all chasing rainbows

Loving a demon with the face of an angel

False prophets worshiping false idols

Fake peacemakers whose thoughts are homicidal

It's not about the Bible, the Torah, or the Kuran, Christianity, Judaism, or Islam

It's not about nations, race, color or creed

It's about the need of elitist thieves to feed their greed

They say you got to vote if you want to make a change

Ha! That's shit's a joke, every candidate's the same

They are all players in a political game

Different campaign but they got the same mind frame

It's a damn shame, but every president's a puppet

The only change we'll see is when the revolution cometh

And trust cometh it will

My brain muscle I build  
I get BIG spitting nothing but real  
Lyricism and hiphop for the streets  
DISL Automatic with Mickey Montz on the beat  
I'm a dog off the leash  
A God awful beast  
I will chomp you to pieces, I'm a monster I feast  
On these sucka ass rappers  
Muthafuckas ass backwards  
They're saying it's a movie well they must be bad actors  
Every scene I see is dumb down and gimmicky  
All these fake MCs I am shutting 'em down lyrically  
I am scared of not one single one of you  
I say it right in front of you  
Now what the fuck you gonna do?  
Not a damn thing  
I'm a peaceful man but if you try to harm me and my fam I'll let my hands swing  
Blaow! Let the hammer ring  
Only in self-defense  
That's not violence, I call it intelligence  
Malcolm X flow, I step slow and move carefully  
Never fearfully cause I know that God is here with me  
Inside my soul  
The lies that your eyes behold  
On the television leave you blinded by the mind control  
Programming, phone tapping with no warrants  
Every move they make is a product of our ignorance  
Money isn't power, it's not even wealth  
The truest form of power is knowledge of self  
And anything else is an ego based illusion  
That leads us to confusion and the evil we're pursuing  
The people that we're choosing to lead us have been abusing  
The power that they were given, that's the reason that we're loosing  
And that's why we need a revolution  
Cause reform will never bring us real retribution  
Destitution, we living in strife  
Cause companies monopolize necessities of life  
If you want to drink they say 'fuck you pay me!'  
If you want eat they say 'fuck you pay me!'  
If you want to breath they say 'fuck you pay me!'  
You thinking something's free? Man you must be crazy  
If you don't got no money to give  
Then die muthafucka! You don't got the right to live  
I guess that's why they say 'you got to earn a living'  
And when you make a fortune they say that you made a killing  
And that's true cause many people have to die  
For a few to get a slice of the American pie  
I said, many people have to die  
For a few to get a slice of the American pie! Muthafucka!
